American Processes

By Shomit Sirohi

Connect it up,
Part and Whole,
Cut-up technique,
Cinema,
A lot of true poems,
Infinity,
Free ships arriving.

I. Design That

Three,
And Four,
We’re off,
And it has Changed,
Every aspect is a Passegenwork,
Arcades,
Kaleidoscope,
I am drinking beer,
I am just about profound,
New York today,
Was a light touch,
People are walking
Grace.

II. Infinite

Faith argued,
Ballet,
I argued further,
Black and Argentine,
Dancing,
I was in a taxi,
I know all the trades,
Publishing house,

Libraries,
Cheaper sections,
Book stores,
Working at a pizza joint,
Small work of plumbers,
A Janitor,
Virtual stuff he does,
Electricians,
Stuff I learnt,
Guitar making,
All instruments shop,
String a guitar,
Playing all of it for years,
Music,
Cinema school,
Photography,
And in fact developers,
Computers finally,
And Soviet learning,
Bible,
Torahnic schooling,
Clothing,
Style.

I put all this together and call it culture,
I might be an institution
More than just capitalism,
Right now,
I was sweet.

III.

Cinema,
Here I am.
